Washington Notes.

Washington 19.—The House, to-day, manimously spread to the item inserted in the agricultural appropriation oil, at the instance of Horace Bayis, appropriating \$5,000 for the purpose of cambling the commissioner of agricultural needs of the arid region of the United States. The term "arid" is here used in its technical sense, as descriptive of all that part of the country where the rainfall is periodical and not distributed throughout the year, the primary object of this provision being to procure a special investigation of the agricultural especial investigation of the agricultural objects and needs of California and such territorica as Arizona and New Mexico. The House also, to day, after some debate, in which Bellford on the one hand, and Sparks on the other, were the principal speakers, adopted the amendment offered to the agricultural appropriation bill weterday, by which \$27,000 are granted. speakers, adopted the amendment offered to the agricultural appropriation bill socieday, by which \$23,000 are granted to provide for the sinking of two experimental artesian wells on the plains of Colotado east of the Rocky Mountains. The amendment is an exact copy of Senstor Inli's bill, as passed by the Senate, except that the amendment requires the money to be expended under the supervision of the commissioner of agriculture instead of the serverary of the interior. This change will be, of course, necessary to make the proposition organic

PISHING TAUKLE, recoming to make the proposition of the agricultural appropriations, enter Hill says there will be no diffi-in keeping it in the bill in the Se in keeping it in too bill in the Senate. Judga Hastings, attorney for the board of regents of the California State University, has, to-day, obtained from the commissioner of the general land office an order cancelling between 11,000 and 12,000 acres of the university salections in California, which are practicably unsaleable by the board of regents, and stand in the way of their obtaining a title for other and more desirable lands. This order leaves about 7,000 acres of the excess applications uncancelled, which will require legislation by Congress.
